

Key City Kennel Club COVID 19 Guidelines

Key City Kennel Club is a volunteer organization for the love of dogs and dog sports. We love helping you train your dog.

With these unprecedented times of COVID 19 we have had to make changes to work toward keeping all instructors and students safe.

In order for the safety of all we have to implement the following:

- If you have a fever or cough or any other COVID symptoms, DO NOT come to class. All instructors pledge to do the same for the safety of all.
- Only the handler of the dog will be allowed in the building. No guests and no other family members.
- Class sizes will be reduced to aid in social distancing. There will only be one class in the building at a time.
- Face masks covering both nose and mouth will be worn at all times while in the building. Sorry, no exceptions.
- Maintain a social distance of at least 6 feet between people whenever possible. Exceptions would be for examinations of dogs or the transfer of the dog to the instructor for a specific exercise.
- The taking of attendance and contact information of all participants is required.
- All students must depart as soon as their class is finished to allow the next class to enter.
- Please wait outside until 5 minutes or less before your class time is to start.
- Bring in only what you need and the dog you are going to train in the class.
